

Cottam Solar Project

The Development Consent Order (DCO) application for Cottam Solar Project has been accepted for Examination.

We submitted a DCO Application to the Planning Inspectorate (PINS) on 12 January 2023. PINS, acting on behalf of the Secretary of State, accepted the Cottam Solar Project DCO for Examination on 09 February 2023.

You can continue to have your say now that the DCO Application has been accepted for Examination.

Register your interest and comment on the Application.

You are invited to consider the Application and whether you wish to submit a Relevant Representation about it. This is a summary of a person's view on the Application, made in writing. You have until **11:59pm on 30 March 2023** to submit your Relevant Representation to PINS. Once submitted, you will become an 'Interested Party' to the Examination and will receive ongoing correspondence from PINS about how you can get further involved in the Examination as it proceeds.

In particular, Interested Parties will have the opportunity to make more detailed representation, known as Written Representations, later in the Examination process, together with the opportunity to participate in the Examination hearings.

To view the Application documents and register as an interested party, please scan the QR code overleaf or visit:

About Cottam Solar Project

Cottam Solar Project is a proposed solar farm with energy storage which will generate and store renewable electricity for export to the National Grid.

The Scheme comprises a number of sites referred to as Cottam 1, 2, 3a and 3b for the solar arrays, grid connection infrastructure and energy storage, as well as cable route corridors, accesses and environmental mitigation and enhancement measures. The sites are located approximately 6.5km south east and 4km north east of Gainsborough.
